

allentown housing authority

We want to work with you.

If you are a minority-, woman-, or veteran-owned business, we want to hear from you.

We are looking to expand our pool of contractors and business contacts and would welcome you to bid on upcoming projects. We recently completed major projects including the \$45 million Cumberland Gardens modernization as well as the \$80 million re-construction of Hanover Acres and Riverview Terrace into Overlook Park.

We have more opportunities in the very near future as we go from the rooftops to the basements of our high-rises and scattered sites to assess and determine our most cost-effective approach to our ongoing maintenance needs.

Possible Upcoming Work Includes:

- Roof improvements
- Window replacements
- Bathrooms
- Kitchens
- Building facades
- Renovations to common areas
- Mechanical rooms
- Electrical systems
- HVAC and other utilities

If you have experience and expertise in any of these areas, please contact the Allentown Housing Authority.
